Home Rule and Amnesty.

Mr. John Martin, in calling the attention of the House of Commons to the case of John Mitchel, made a long speech, and amongst other remarks said:—

"In 1867 a new Reform Bill was passed which took in all the people of England, together with the former ruling classes, to form the governing classes of the country. And although small change in English politics had at present resulted from this, yet, considering that we had household suffrage, and vote by ballot, the English people might at any time interfere potentially— nay, very potentially—in the government of England. (Hear, hear.) It was reasonable to conclude that with this feeling of responsibility on the part of the English people there would come an inquiry into the relations which Ireland held to England and the result of English rule in Ireland. He thought it reasonable to hope that the conclusions at which the people of England would arrive would be more just, more humane, more respectful for the name of England, and more happy for the people of Ireland. But besides such considerations as that, England had since 1848 adopted a new principle in her colonial and foreign policy. The interests of the English Empire were not considered to be one whit injured by the Home Rule of Canada. Besides Home Rule had been also granted to Canada, and there was even talk of Home Rule being granted to that colony in which the case of Langalibalele occurred."

Mr. Lewis, the member for Londonderry, in replying said:—"It was necessary for the hon. member to appeal to that or the other side of the House to cease hating the sister country. To tell that House, and through the Press to tell the country, that England or the United Kingdom was responsible for the potato blight was to ask them to believe what was simply ridiculous. *The hon. member had appealed to the case of Canada in support of his argument: but he must altogether repudiate the suggestion that Ireland should be turned into a colony or degraded to Canadian privileges.* He had been sent to that House an independent member to take part in the discussion of all suggested improvements, to put Ireland on exactly the same platform as to rights and privileges with Scotland and England."

HE HAD FIGURED THE COST.—A few days ago a couple from Iowa, on their way East, had to stop in this city owing to the wife's illness. They went to a hotel, and for the first day or two the husband did not complain of the cost, but when his wife grew worse, and a doctor was called in and a nurse employed, he began to hang on to the dollars which were demanded. On the fifth day the doctor looked serious and said that the woman would probably die. The husband consulted with the hotel clerk and with a freight agent, and going back to his wife he leaned over her and sobbed:

"Oh! Sarah Jone! you musn't die here!"

"I don't want to leave you, Philetus," she replied, "but I fear that my time has come."

"Don't! oh, don't! die here!" he went on.

"If my time has come I must go," she said.

"Yes, I suppose so, but if I could only get you back home first I'd save at least forty dollars on funeral expenses, and forty dollars don't grow on every bush."—[Detroit Free Press.

LONDON journals have for a long time had articles on the subject of "A Third Sex," and a writer in the "Woman's Journal" thus alludes to the matter: "There is growing up in England a large class of woman who do not marry, and who apparently wish not to marry. They deliberately devote themselves to literature, to teaching, to some trade, generally an artistic one; at any rate to some occupation that gives a livelihood and tends to culture, and this they choose for life. The marrying instinct seems dead, or rather never to have been born in them. They do not seem to be thought out of place, but, on the country, they move in fit places in the great social organism easily and naturally and are accepted without remark."

The Failure of Inethurn & Co.

NEW YORK, March 14.—There was a great sensation on Wall street, yesterday, on the announcement from London of the failure of the great banking and commercial house of J. C. Inethurn & Co., liabilities, £2,000,000. Although it was known for three weeks past, both at London and among financial men here having correspondents in that city, that the house of Inethurn was in a shaky condition, they managed to pay claims upon them up to the last minute, thereby avoiding the necessity of proclaiming their inability to meet their engagements until the hour for closing the London Stock Exchange and preventing a run of them before to-morrow. The bankrupt firm did an immense business with Australia, India and all parts of the world. They dealt largely in American products, cotton especially, and the immediate cause of their downfall is supposed to be an owerwhelming influ of drafts from the South against cotton consigned to them by planters and dealers in that region.

PROSPECTUS
—OF THE—
Dominion Pacific
STEAMSHIP COMPANY
Limited.
Capital $300,000, in 6000 Shares of $50 each, with power to increase to $500,000.
PROVISIONAL DIRECTORS:
R. FINLAYSON, Esq., RT. BEAVEN, Esq., WM. WILSON, Esq., J. H. TURNER, Esq., L. BOSCOWITZ, Esq., CAPT. CLARKE.

The D.P.S S.Co., Limited, is organized for the purpose of acquiring first-class steamers to perform the large and increasing trade between Victoria and San Francisco by a thoroughly British Columbia Company formed on a broad and comprehensive basis.

The intentions of the Company are as follows:

To have larger, more commodious and more seaworthy steamers than have hitherto run on this route.

To make the passage between Victoria and San Francisco within three days.

To make Victoria the headquarters of the Company.

To have the expenditure and profits of the trade distributed in British Columbia.

To facilitate the development of the coal trade of Nanaimo.

To make *via* Victoria the favorite route of the passenger travel between Puget Sound and San Francisco.

The operations of this Company will be made dependent upon the subsidy being obtained from the Dominion Government for which an application has been made.

The Provisional Directors are in possession of the returns of the trade of 1873 and 1874 between Victoria and San Francisco, which demonstrate that the D P. S S.Co., Limited, will be a profitable enterprise. They invite subscriptions from the people of British Columbia for the Stock of the Company, confident that it will be found to unite an additional source of prosperity to this Province with a good investment to shareholders.

Legitimate prudential considerations will make the calling up of the capital contingent on the granting of a subsidy by the Dominion Government to this Company.

Applications for Shares, which will be allotted according to priority of application, to be made at Messrs. Turner, Beeton & Tunstall's office, Wharf street, Victoria.

Ayer's Hair Vigor
FOR RESTORING GREY HAIR
TO ITS NATURAL VITALITY & COLOR

Advancing years, sickness, care, disappointment, and hereditary disposition, all turn the hair gray, and either of them inclines it to shed prematurely.
AYER'S HAIR VIGOR, by long and extensive use, has proven that it stops the falling of the hair immediately; often renews the growth, and always surely restores its color, when faded or gray. It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus brashy, weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and stablished; thin hair thickens; and faded or gray hair resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions diseases of the scalp are impossible.
As a dressing for ladies' hair, the VIGOR is praised for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.

Daily British Colonist.

THURSDAY MORNING, APRIL 1st, 1875.

L. P. FISHER, 20 and 21 New Merchants' Exchange is our authorized Agent in San Francisco.

Come, and Welcome.

The extremes of heat and cold are causing many in old Canada to desire a milder and more equable climate. Such a climate British Columbia offers; and we are glad to know that there is a growing disposition to seek its genial shores. Scarcely a steamer arrives that does not bring a greater or less number of these home-seekers. There is reason to expect that they will come in very much larger numbers during the present year. The increase may be attributed to two causes: the exceptionally rigorous winter just past, and the better knowledge of the Pacific Province. We have just learned that from a single neighbourhood in the Province of Ontario, Orillia, a party of one hundred persons, including a number of families, are preparing to come here in May next. This party is made up of laborers, farmers and mechanics,—respectable and industrious people, just the kind of people to do well both for themselves and Columbia. And surely there will be room and work for all. Would it not be desirable that the Government should make fitting preparation for the proper reception and direction of those who come? What about the Immigration Agent for this Province provided for in the Dominion Estimates? The $1,000 appears in the annual appropriations for the salary of that mythical officer; but beyond that there are no indications of his existence. We believe the other Provinces, or some of them, have similar agencies in active and useful operation; and surely none stands more in need of such an organization than Columbia.

Dominion Mail Summary.

We have papers to the 18th of March.

OTTAWA, March 17.—Taylor & Co., of Crillia, have intimated their intention of refusing to sign the contract lately awarded to them, of the railway branch between Fort William and Lake Shebandowan, and Sifton & Glass will receive the contract.

MONTREAL, March 16. — The circumstances concerning the death of Jesse Thayer, near Concord, have come to hand. While he was on the train, a young man named A. T. Gordon took a seat in front of Thayer, pulled a revolver from his pocket, and shot himself through the head. Thayer became faint on looking at the dreadful spectacle and going out on the car platform swooned away and fell off, fracturing his skull.

The new Province of Saskatchewan will extend from White Mud River on the east to Edmonton, including all the country watered by the North Saskatchewan, and will be admitted to Confederation as soon as the population numbers 15,900; and will have federal and local representation. This will leave room for a Province to the north and one to the south, Manitoba being extended west to White Mud River.

The Nova Scotia Government has been sustained on the motion for an address in reply to the Speech. The Opposition declined to move an amendment.

The removal of Col. Fletcher from Ottawa, to resume command of the Scots Fusilier Guards, is generally regreted.

In *re* the fight between the Evangelical and High Church sections of the Toronto Diocese, it is very evident that the latter body are showing the white feather and are backing down from the high ground taken. Dean Grasset's hands have been very much strengthened by the influential deputation that waited upon him yesterday. Signatures on the address presented include those of the leading men of various parts of the Province, such as Judge Draper, Prof. Wilson, Vice Chancellor Blake, C. Gzowski and others equally influential.

The Halifax *Chronicle's* Ottawa correspondent makes a note of the fact that British Columbia and Manitoba members have monopolized all the talk in the House this session. These members appear to think that their affairs are of paramount importance and that all the world is gazing upon them, when they are merely boring the House. They are excellent fellows, however, and after they have learned to conquer their provincialisms they will become very useful members of Parliament.

OTTAWV, March 16—Mr. DeCosmos enquired whether the *Government* intend giving the £50,000 sterling promised for the construction of a graving dock at Esquimalt.

Hon Mr. Mackenzie—I object to the form of this question.. It contains an argument on statements intended to convey a particular impression. If the question is put in a proper way upon the paper I will answer it. I have simply to say at present that the *Government* will carry out all agreements ever made, either by themselves or their predecessors.

English Mail.

LONDON, March 16—Field Marshal Sir Wm. Maynard, Lieut.-Colonel of the Coldstream Guards, and Constable of the Tower, died yesterday, aged 91 years. He was Quartermaster-General at Waterloo and Commander-in-Chief of India in 1850.

Lord Chief Justice Cockburn's charge to the jury in the Tichborne case is published. It is about the same length as Gibbon's "History of the Decline and Fall."

The English Parliament has resolved to suspend the sessions for nearly three weeks to allow the members to enjoy the Easter holidays. Work will be resumed on the 5th of April, and on the 15th the Government will present the budget.

Japan.

From the Japan "Gazette" of February 25th we make the following extracts:

Fires have been very prevalent during the past forthnight. At Osaka, there was a fire on the 7th, which burnt over the space of 16 cho, destroying thousands of houses. At Homura and Amanuma, suburbs of Yokohama, a large fire occurred on the evening of the 6th, which destroyed hundreds of houses.

The Battalion of English Royal Marines at present stationed in Yokohama has been recalled, and for the first time during a period of some twenty years the community will be left without the moral protection afforded by the presence of foreign troops.

It is said that Shimada, the banker who recently suspended payment, has resumed business.

The German Acting-Consul at Hiogo, Mr. Von Knoblock, committed suicide by shooting himself through the head.

Her Imperial Majesty, the Empress, has made a contribution of 5000 yen (dollars) towards the establishment of a school intended to prepare young woman as teachers.

The ex-Tycoon has contributed 2000 yen and 1000 works, consisting of many thousands of volumes, towards the formation of a national library.

A CARD.
EDITOR COLONIST:—In the "Standard" of to-day it is stated that I was charged at the Police Court with selling liquor to Indians. This is a mistake. I was arrested on a charge of intoxication, and the Inspector of Police having stated there was nothing against my character, Judge Elliott discharged me. I make this explanation because a report of the kind, if allowed to go uncontradicted, would naturally prove most injurious to me. I am, etc.,

NOTICE TO MARINERS.
No. 4 of 1875.
POINT ATKINSON REVOLVING LIGHT.
Notice is hereby given that a Lighthouse has been erected by the Government of Canada on Point Atkinson, at the north westerly entrance to English Bay and Burrard Inlet in the Straits of Georgia, British Columbia.
Latitude 49 deg. 19 min. 42 sec. N.
Longitude 123 deg. 15 min. 51 sec. W.
A Revolving White Light on the catoptric principle, elevated 159 feet above high water, will be exhibited on 1st May next. The light will show at intervals of one minute, making a complete revolution in two minutes.
The tower is a square building with dwelling house attached, painted white, elevated 40 feet from summit to centre of Light. The Light will be visible round an arc of the horizon from the entrance to Burrard Inlet to an E. by N. ¾ N. bearing, and should be seen in clear weather 14 or 15 miles distant.
The Light should not be brought to bear to the Eastward of North by vessels in the Straits, as this bearing will only lead clear of Sturgeon Bank off Fraser River.
The Bearings are magnetic.
The Light is for coast purposes and to indicate the entrance to Burrard Inlet.

Daily British Colonist.

THURSDAY MORNING, APRIL 1st, 1875

THE BRITISH COLONIST

Is the only Paper Published at Victoria that receives Regular Telegraphic Dispatches.

FIRST PROVINCIAL LEGISLATIVE ASSEMBLY.

FOURTH SESSION.

WEDNESDAY, March, 31.

EDUCATION.

Mr. A. R. Robertson presented a Bill for the amendment of the Public Schools Bill, which was read a first time.

LAND SALES.

Mr. Booth reported from the Committee on the sale of lands by auction that the only lands so sold lay in New Westminster district, that they were worthless for agricultural purposes and that the sales had not been detrimental to the interests of the Province.

P. O. HOME BILL.

This Bill was read a first time.

INDIAN RESERVES.

Mr. Smithe moved that a Committee be appointed to enquire into and report to this House upon the condition of the Indians in British Columbia with respect to their lands and reserves, with power to call for persons and papers; such Committee to consist of the mover, seconder, and the hon. Attorney General, Chief Commissioner of Lands & Works, Mr. McCreight, and Dr. Tolmie. Carried.

DELAYED DISPATCHES.

Mr. Robson asked the hon. Mr. Walkem the following question: Have the despatches referred to in the Lieutenant-Governor's opening Speech as not having been received yet come to hand? What is the nature of those despatches?

Hon. Mr. Walkem—They have not been received, and I cannot say what is their nature.

Mr. Robson—But if they are mentioned in the Speech the Government ought to know what they refer to.

Hon. Mr. Walkem—They refer to the Railway of course; but what they contain I do not know.

Mr. Robson—The non receipt of the despatches was considered of sufficient importance to be noticed in the Governor's Speech. The nature of these dispatches must be quite well understood by the Government.

Hon. Mr. Walkem said the dispatches had not been received. It was childish to assume that we do not know what they are, as they have already been promulgated here. The hon. gentleman knows what they are well enough.

RAILWAY RESERVE.

Mr. Robson asked the hon. Mr. Beaven: The Premier of Canada having stated in his place in Parliament, that the British Columbia Government have power under the 11th section of the Act of Union, to permit pre-emption on the Railway Reserve, and having intimated that the Dominion Government would be disposed favorably to regard the exercise of such power, is it the intention of the Government to permit pre-emption upon said lands?

Hon. Mr. Beaven—No official intimation has been received by the Government. Application had been made to the Dominion Government by this Government for the opening of the lands, but no answer had been received as yet. This Government does not intend to issue any patents for land comprised within that reserve.

QUALIFICATION AND REGISTRATION OF VOTERS' BILL.

Mr. Robson said that the Bill was a retrogressive step, more complex and vexatious than the system bequeathed to us by the Crown Colony Government. The country was divided into 3 or 4 different heads, which would greatly complicate the work of registration, which should be as simple as possible. The Act would have the effect of disfranchising at least one-half of those now entitled to vote. He should think that the party introducing it should be prepared to show that the right of franchise in this Province had been abused. The Bill legislated against imaginary evils which were never likely to arise. In a new country like British Columbia, undertaking to work out Responsible Government, every man who exercised the franchise took his share in working out the system, and unless it could be shown that the present Franceise Act had been abused the present measure was unnecessary. The effect of the Bill would be to keep persons who arrived in the country away from the ballot box for 2 or 3 years, practically disfranchising men with settled interests who had a perfect right to take a share in the government. There was already too great a disposition on the part of the people to refrain from voting, and if such was the state of affairs, it would be wrong to take away the right of voting from those who already enjoyed the privilege. The condition that a man should be a stated resident for 12 months in a district before he could vote was equivalent to disfranchising 3000 or 4000 Cassiar miners. We were going back to the days when the Government was almost prepared to put a company of soldiers around the ballot box. The Government ought to be prepared to show very strong reasons why they seek to take away the political rights of the subject—rights which had often been wrested from the Government by the sword and bayonet. The Bill also swept away the barrier against Chinamen and Indians, and under it they might vote. With respect to the alleged disallowance of the present Bill, if the most ample allowance was made for time, the fact of the disallowance must have been known, and therefore it is most probable none has taken place. He challenged the Government to say that the people of British Columbia were unfit for the franchise, and was astonished to find the Government now, on the eve of an election, asking the House to pass a measure which would disfranchise one half of the population of this country. He hoped the House would consider carefully how they tampered with the rights of the people—rights of which they were now actually in possession. He ridiculed the idea that one district might swamp another, and argued that the provision in the present Act that a person could only register in one district was a sufficient answer to this. He would oppose the Bill and considered it wrong in principle from first to last and contrary to the drift of legislation on this subject in every free country.

The Hon. Chief Commissioner said that the only difference between this Act and the last was that it prescribed a residence of 12 months instead of six in order to qualify. He said also that the Act of last session was not properly worded. He asserted that he was informed that even now there were upon the rolls of Victoria names of residents of Puget Sound. Was this, he asked, a proper state of things? He believed that residence should give the right to vote. Even allowing that under the Act of last session no abuses existed, yet if the hon. gentleman who spoke last would read it he would see how easy it was that they should exist. He did not think that changing the required period of residence from 6 months to 12 could be such a serious trouble as it had been represented to be.

Mr. Holbrook thought the clause which compelled registration every year would be very vexatious, and would tend to disfranchise many persons. He thought the public were very well satisfied with the working of the present Act and he objected to alterations which would create useless troubles. He also thought that it might have a tendency to reduce the voters' lists and thereby make the population of the Colony appear small in the eyes of Canadians. The hon. Chief Commissioner had forgotten to say, when speaking of voters from Puget Sound, &c., that the person placing his name on the voter's list could not actually vote until after the list was revised, and he thought this and other safeguards existed which were amply sufficient against this evil. He gave examples of many circumstances under which persons having large interests in the country might be disfranchised under the proposed measure and he hoped the Bill would not pass to a second reading.

Mr. Smithe thought it must have required a large amount of assurance to ask the House to pass a Bill of the nature of the one before the House without being able to advance any argument in favor of it, or showing any necessity for it. As far as the remarks relating to the Act of last session being disallowed this mattered little, as we could fall back on the previous Act which, on the authority of the Premier in his speech as introducer of the present measure, was as good and almost identical with the one under discussion. He remembered that on the closing of the House last year the Premier had made the Governor say in reference to the Act then passed that he was sure it would give satisfaction, and now without showing any reason for so doing, they proposed to supersede it. He thought that a declaration should only be required from strangers, and if amendments with regard to this matter were necessary they might have been made without destroying last year's Act an t going back to the old illiberal measure. He also objected to the clause which made fish of one and flesh of another, and thought that the Premier's own district appeared to have been specially exempted from the operation of that part of the Bill requiring a 12 months' residence.

Mr. W. A. Robertson thought that the Government must be afraid of the people. They were continually hedging themselves round with provisions against voters, against contractors and persons of all classes. The hon. Chief Commissioner had said that the names of residents on Puget Sound might be found on the voters' list. If the hon. gentleman would look a little closer he would find residents of London on it and of San Francisco. He did not think this amounted to anything. The Government were taunting the Opposition a day or two ago with tinkering with the Constitution, and now they were tinkering with it themselves. He believed the Act of last session was a very good one, and he would vote against the present measure.

Dr. Tolmie said the only argument of any force which he had heard from the ranks of the Government was that the Premier had heard (not officially) that the Bill of last session would be disallowed. He thought it was difficult enough already to get people to take interest in politics and he would vote against the Bill.

Mr. Booth was satisfied with the Act of last session, but there were amendments needed. It was necessary to define residence. The present Bill proposed to do it. The passing of this bill to a second reading did not secure its passage.

Mr. Humphreys had read the bill very carefully and was not favorably impressed with it. He did not think the Premier or the hon. Chief Commissioner had proved the necessity for the bill. He treated with scorn the assertion that the bill under discussion and the bill of last session were identical. The latter was far more complicated—30 clauses against 24—and a greater number of schedule forms and numerous interpretation clauses which were again susceptible of many meanings. He regretted that such a bill as this was discussed before such a slim house, and considered it bore out the statements which had been made that the people of British Columbia were apathetic in these matters. He taunted the hon. introducer of the bill with ingratitude towards Chinese and other aliens, although he had been first elected by such. He had nothing to do with this, however, but he objected most decidedly to an attempt to disfranchise a large number of the British population of this Province. He characterized the bill as a subtle electioneering dodge and spoke of many farm-hands in the upper country who could not be said to have a permanent residence and who would be all disfranchised by the passing of this bill. They were always traveling from farm to farm and occasionally visiting the mines. How could these men vote under the measure before the House? He declared that never during the period when the Province was a Crown colony had the officials dared to bring in such a bill as this. (Hear hear.) It would really appear that this bill was mainly planned to enable the present Government to retain power. It ought never to have been brought forward unless the Government were able to prove that the bill of last yea was disallowed. Was the right of franchise a right of British subjects, or was it merely a privilege which they exercised by the favor and permission of the Government of the day? (Hear hear.) The bill was too complicated; a measure of this nature could not be too simple, and he thought the House ought not to pass a bill which would disfranchise many of the very men who had placed them in their seats.

Mr. McCreight thought that as the approaching election would be a very important one to the Province, it was advisable to have the exercise of the franchise provided with all the possible safeguards. After the practices which were said to have prevailed at the last Municipal election, he thought no one could quarrel with the proposed bill. The principle points objected to were the declaration required and the alteration of the necessary period of residence from 6 months to 12. Respecting the first he thought it would have the effect of restraining Chinese and other aliens from voting, and as to the second, he thought it was conceded by everyone that it was desirable that voters should reside some time in the country before exercising the franchise, and he certainly did not think the extra six months any great hardship. The sending of the bill into Committee did not ensure its passing as it stood and amendments could be made to it. He would vote for the second reading.

The Premier said it was well known that persons had come over from the Sound and elsewhere and had their names put on the electoral roll. He wished only to protect the legitimate voter in his rights and prevent him from being outvoted by those who had no right to the franchise. He hoped that no more opposition would be offered to the principle of the Bill.

The vote was then taken as folllows:—

Ayes—Walkem, Ash, Beaven, Armstrong, Robinson, Cogan, Todd, Mara, Semlin, Hughes, Duck, McCreight and Booth.

Noes—Humphreys, Robson, Tolmie, Robertson, Holbrook, Brown, Smithe.

The report on the Game Amendment Bill was adopted.

The Constitutian Amendment Bill was postponed.

The House then went into Committee on the Cattle Breeding Act. Mr. Hughes in the Chair, and after passing most of the Clauses and striking out Clause 7, rose and reported progress, and asked leave to sit again on Thursday.

In answer to an enquiry of the member for Nanaimo regarding a letter from Ottawa which was published in Canada as having been sent to the Lieut.-Governor of British Columbia, but which the Premier said a few days ago had not been received here, the hon. Mr. Walkem said that all documents relating to the latter would be laid before the House before its rising.

The Premier stated that the usual motion that a supply be granted to H. M. Government had been omitted, and he would now move the same. Carried.

The House adjourned till 2 o'clock on Thursday.

NOTICES.

The Premier—To move on Tuesday next that the names of the ayes and noes on the vote upon the Independence of Parliament Bill on the 23d of March be entered upon the minutes of this House.

Pygmalion and Galatea.

This most charming play by Gilbert will be produced at the Theatre Royal Thursday and Friday evenings. The language is beautiful; the plot most natural. Pygmalion, a sculptor, had made a statue (Galatea); Cynisca, his wife, was his model. They both loved it with a deep love; but Pygmalion could not give the statue life, and bewailed his want of genius—his frozen imagination. One day, while Cynisca was absent, Pygmalion beheld his glorious statue move, descend from her pedestal and stand before him full of life and love—love for him. The wife on her return home became jealous of Galatea, and prayed the Goddess Artemis to punish the truant and call down blindness on the backslider. Artemis granted Cynisca's prayer; Pygmalion is blind; Galatea's grief is great. Pygmalion, whom she loves, loathes her as the cause of his misery. But the *denouement* is most poetical. Galatea prays for Pygmalion's sight—for his life. The wife overhearing, her heart is touched. She forgives Pygmalion, whose sight is restored, and Galatea resumes her former marble statue. There are two comic characters who create much mirth in this wonderfully interesting play.

FOUR OF CAPTAIN MCDONALD'S TRAINED INDIANS RESCUE A PARTY FROM DROWNING.—A part of Captain McDonald's band of trained Indians, four in number, who give an exhibition of their talents on Saturday next at Woodward's Gardens, while in their camp on the road near the Eight-Mile House, the other morning, noticed a small boat capsized off Point San Bruno. The boat, which was at first under light sail, contained three Chinamen. When the accident occurred they were all thrown into the water, but one of them managed to get on top of the boat, which was floating keel upwards. When the Indians espied them they stripped off their clothes, jumped into the bay and struck out for the Chinamen, who were nearly half a mile from shore. Two of the Indians seized the struggling Chinamen and brought them in safety to the beach. The other two succeeded in righting the boat and saving the other Chinaman. The deed was a dangerous and a generous one.—*S. F. Alta.*

R. E. CHURCH BAZAAR.—The Bazaar for the Reformed Episcopal Church, was a complete success. The room was beautifully decorated. The attendance was very large, the hall being crowded; nearly all the articles were disposed of by the ladies who were unwearying in their efforts. During the afternoon Haynes' Band played several pieces, and the young ladies of the congregation performed with great skill upon the piano. In the evening the Mechanics Institute Band volunteered their services. The receipts at the door were $103, and we understand that the total receipts will reach $1.200!

THE steamship Los Angeles, Captain Howell, arrived yesterday morning, in 86 hours from San Francisco, bringing 25 passengers and 16 bags mail matter for Victoria, and 43 passengers and 103 tons of freight for Puget Sound. She sailed from Esquimalt for the Sound yesterday morning. The passage up was very rough, but the ship behaved well.

THE steam tug Beaver will this morning with the ship Merchant for Hastings Mill. The steam tug Grappler also leaves this morning with the bark Clifton for Cape Flattery. We are requested to state that Mr. R. Brodrick has been appointed agent for the above steam tugs.

THE U. S. Senate have ratified the Hawaiian Reciprocity Treaty.

Municipal Council.

WEDNESDAY, March 31.

The Mayor took the Chair at 7:45.

The Clerk read the minutes of last Wednesday's meeting and also of special meetings on Friday and Monday evenings, at which latter resolutions were passed respecting the obtaining of the money necessary to carry on the Water Works, and an application to B. W. Pearse Esq., for the loan of scows, etc., to be used in raising J. Jones' schooner, sunk near the bark Clifton, and the Com. finished the amendments to the Consolidation Act and passed a resolution to call for tenders for printing of the same for the use of the Legislative Assembly.

Ordered that the Minutes stand adopted.

COMMUNICATIONS.

From Stahlschmidt & Co., stating that the box drain in front of their store has fallen in.

Referred to Street Com.

From Mr. H. B. Good, complaining of the accumulation of water in front of the house belonging to W. A. G. Young, James Bay, and stating that the drain stopped up was public property.

Referred to Street Com.

From Hon. H. P. P. Crease, asking the Council to make a culvert to carry off the water from that part of the roadway on Fort Street where the private road from his house to Fort Street would intersect.

From the City Assessor, returning the City Assesment Roll in accordance with Bylaw.

From Messrs. Robertson & Johnson, in reference to suggestions for amending the Consolidated Act.

FINANCE.

A number of bills were referred to the Finance Com. for payment if found correct.

A communication was read from B. W. Pearse, Esq., stating that he would have much pleasure in lending the mud-punts to aid Mr. Jones in raising the schooner sunk near the coal wharf.

After considerable discussion, in which the Mayor contended for the granting of some discussion in the matter, and Couns. Gosnell, Williams, Walker and Trounce argued that the obstruction ought to be removed by the Dominion Government, the matter was allowed to drop.

On motion of Coun. Shakespeare a by-law appointing Monday the 3d day of May next for the first sitting of a Court for hearing appeals against the Assessment Roll was read a first time.

Moved by Coun. Gerow, seconded by Coun. Shakespeare, that no tender for Municipal work be received from any person who shall not have paid his Municipal taxes. Carried.

The Mayor said he had received the rules of the San Francisco Corporation and would draw the attention of the Councillors to the clauses dealing with sample-sellers, and suggested the appointment of a committee to consult with the City Barrister on the subject. Couns. Williams, Trounce and Gerow were appointed.

Coun. Williams drew the attention of the Council to the peddling of persons traveling on steamers, schooners, etc., and moved for the appointment of some person to collect dues from these people.

It was suggested that the Mayor should select some person to act for one week and report at next meeting of the Council. Carried.

The Mayor said that the contractor for the blasting of rock for the harbor had seen him on the subject of securing the rock for the James Bay bulkhead. A letter was read from the City Surveyor stating that it would require about 2,300 tons of rock to form a good rubble bulkhead and that not more than one-third of the amount would probably be removed from the harbor and would suggest that borings be made. Laid over.

The Clerk was instructed to have a notice inserted in the papers warning all persons wishing to appeal against the Assessment Roll to make a written appeal before 1st May.

After a few remarks from Coun. Williams respecting the necessity of calling for tenders for the immediate laying of the waterpipes, Council went into committee on this and other matters.

☞ Pygmalion and Galatea.

R. E. CHURCH.—Hon. W. J. Macdonald presided at a missionary meeting held at the Reformed Episcopal Church in Ottawa on the 15th March. Bishop Cheney, Mr. Johnson, Commissioner of Customs, and the Chairman spoke. The latter gentleman congratulated the members of the church on the possession of such a fine building for public worship and afterwards gave some interesting information with regard to the formation of a Reformed congregation in Victoria, British Columbia. He said the work was still going on and meeting with hearty support from all parties in that distant Province, and gave a clear and lucid statement of the origin and cause of the secession from the Episcopal Church of England, and of the damaging effects of the High Church party, led by the Bishop of Columbia.

YESTERDAY we published from the Victoria *Standard* a report of what was termed a "Triumphant Reception" accorded to Mr. Walkem on his return to British Columbia. The *British Colonist*, likewise published in Victoria, gives, we observe, a somewhat different report of the affair, from which we must infer that it was not the *triumphant reception* it was reported to be by the first-named journal.—*Ottawa Times.*

HON. A. BUNSTER.—All the Dominion papers speak in terms of praise of the Hon. A. Bunster's temperate and logical speech in the Commons, and contrast it favorably with the bombastic, windy effort of Mr. DeCosmos on the same subject. Bunster seems to have "put a head" (oratorically speaking) on DeCosmos.

B. C. CHURCH OF ENGLAND MISSION.—Rev. Mr. Good, of Lytton, lectured before about 20 persons at Christ Church, Ottawa, on the 16th March. Mr. Good made an earnest appeal for aid to the B. C. Indian Missions of the Church of England of Canada.

A Capital Plan to Cheat the Telegraph.

A capital joke has lately transpired in this Province. A merchant living at Yale, wishing to order a bill of goods and desiring to shorten the dispatch telegraphed to a well-known firm on Wharf Street. "See Chapter 22d, v. 34., Leviticus." The merchant in this city telegraphed back, "Chapter 29, v. 1, St. Matthew." And the goods were sent. The secret being too good to keep was betrayed by a clerk of the Victoria firm, and now all the merchants are consulting the Old and New Testament to find appropriate telegraphic despatches, while the telegraph company will try to have an Act passed to limit the sale of Bibles.

NICE WORK.—The Local Government had the road cleared of fallen trees as far as Henderson's Hotel, Saanich, and left the settlers living north of that point to clear the road themselves. Messrs. Williams and Brown had to cut a way through for their teams. What has North Saanich done to the Chief Commissioner to be thus treated?

OUR HURRICANE was not felt at San Francisco or on the Coast south of Cape Elattery. It was purely a local affair, then—a genuine British Columbian. Let us be thankful we have at last got something the rest of the Coast hasn't.

Mackenzie on the Railway.

The hon. gentleman has inquired in regard to the arrangements made with British Columbia, and I observe that my hon, friend beside me (Mr. Blake) has placed a question on the paper as to the course we propose to pursue in Parliament in relation to it. It will be observed by every one who has read the correspondence that the practical results obtained are these: After Mr. Edgar returned from British Columbia Lord Carnarvon made an offer by telegram to arbitrate in the matter between the Dominion and the Province of British Columbia. We declined any arbitration as there was nothing to arbitrate upon, but we were quite willing as was stated in the Minute of Council to leave His Lordship to say whether the Dominion had not offered what was under the circumstances the most reasonable and fair terms that could be expected. Our views were, generally speaking, adopted by Lord Carnarvon but he suggested certain things that might be done. It will be remembered that we offered through Mr. Edgar without at all committing ourselves to Esquimalt as the ultimate end of the railway, to construct the railway from Esquimalt to Nanaimo, and as there would be no serious difficulty in locating the line we were willing to proceed with the constouction of it at once—that is last year; and that we would prosecute the surveys on the Mainland with all due despatch consistent with a proper regard for public interests, and further that we would expend the sum of not less than one and a half million of dollars per annum within the boundaries of that Province until the road should be completed. These terms, I may say, were declined, or rather they were not considered, but an issue was raised on the point as to whether Mr. Edgar was authorized to offer them or not. I therefore terminated the negotiations by directing Mr. Edgar to return, and leaving it to the Government of British Columbia to make any other proposals that they thought proper, we holding ourselves prepared to consider any proposition that might be made. Lord Carnarvon, as will be seen by the despatches in the papers, considered that the grounds we took were quite reasonable; but he thought on the other hand that it would be more satisfactory to the Province, and that the Province might reasonably expect to have a definite period named for the completion of the line, and he put the case in his letter of the 17th November in this way. [Quotes new terms]. So that the terms recommended by Lord Carnarvon, and which we have accepted, are simply these, that instead of one and a half million we propose to expend two millions a year within the Province of British Columbie, and we propose to furnish the railway connection through that Province and downward to the point indicated by the year 1890, being an extension of time of nine years. With respects to the question raised by my hon. friend from South Bruce I may say that I have nothing to ask from Parliament. We have no authority to obtain, but have merely to communicate to Parliament this decision and rely upon the House supporting us in accepting the terms that have been made through the intervention, or intermediation of Lord Carnarvon, and that support I do not doubt will be cheerfully accorded. We have availed ourselves of all the resources that Parliament placed at our disposal as best we conceived it possible, and in such a way as to facilitate to the utmost possible extent future operations in the construction of this road. And while we still adhere to the policy we formerly intimated of, at least for years, utilizing the water communication at various points, we shall always endevour to proceed with the work as fast as the circumstances of the country—circumstances yet to be developed—will enable us to do, so as to obtain as soon as possible complete railway communication with the Pacific Province. How soon that time may come I cannot predict, but I have no reason to doubt that we shall be able to keep our obligation to British Columbia as now amended, without seriously interfering with the march of prosperity. There is no doubt, however, that it will place a serious responsibility upon the country, and we shall therefore proceed with the caution we have always advocated, whether from this side of the House or from that. I have given a brief sketch of the position of affairs as they stand at present. We have taken $50,000 for the construction of two small steamers to navigate Saskatchewan, and $60,000 to improve the navigation at certain rapids. We have taken $500,000 for expenditure between Esquimalt and Nanaimo. We hope to be able to locate that route early in the summer and place it under contract; a very large portion of the year may be utilized for work upon that route, and there is nothing, I think, to hinder the construction being carried on during the whole of next winter up to the time we meet here again. We have also taken a sum of $250,000 for possible work upon the Mainland of British Columbia. It is uncertain whether we shall be able to use this vote, but it is likely we can at least expend the money upon preliminary works.

PIANOFORTE, SINGING, AND THOROUGH BASS—taught by DIGBY PALMER—(pupil of the late J. B. Cramer, R. A., of Music, London.) Terms—$6 per month. Two lessons per week. Apply at D. Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia and Mandrake with the Iodides of Potassium and Iron makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of the same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as Ulcerations of the Liver, Stomach, Kidney, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pistules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side and head, Female Weakness, Sterility, Leucorrhea arising from internal ulceration and uterine Dropsy, Dyspepsia, Emaciation and General Debility. With their departure health returns.

Come ye citizens and strangers
Miners, Sailors and Western Rangers,
Listen to the truthful story,
Of Frank Campbell of Victoria.
He in truthful words will tell you,
Just the goods he has to sell you.
Mind ye now he isn't joking,
If you are fond of Chewing and Smoking,
Or if you are given to snuffing
What he keeps does not need puffing.
He has brands will suit you really,
Tobacco users prize them dearly;
From all parts of the "Old Dominion,"
He has stock and his opinion
Is that none can suit you better,
They will please you to the letter.
His Cigars, just from "Havana,"
Smoke in the most lovely manner;
Meerchaum Pipes of style and fashion,
Just to suit each taste and passion;
And it is in Canada stated,
His Tobaccos are celebrated;
Green Seal, Straight Cut, all go,
Big Lick, Big Cut, Wind Sap, also.
All the Fine Cut brands for chewing,
That your teeth will never ruin:
Pipes to suit the inveterate smoker,
Cards for playing Sinch or Poker.
Pipes of brier and stems of cherry,
More than any man can carry;
It would take a week to tell you
All the things he has to sell you,
While in town you may be stopping,
At the "Adelphi Corner" drop in;
Campbell you'll find at that location,
Ready to give you information.
Or to see you well provided,
With what is by all decided
The smoker's and the chewer's glory,
The best and cheapest in Victoria.

DR. BARNARD

HEREBY TENDERS HIS SINCERE THANKS to Dr. Thompson, of Portland, and the Ladies under his charge, who kindly permitted his witnessing the fillings of some of their teeth during his late sojourn in this city.

Every manipulation of the Doctor's was closely watched, from the adjustment of the Rubber Dam and its appliances to their teeth, to the formation of proper cavities and retaining pits therein, the Packing and Condensation of Gold and the subsequent polishing and burnishing of the same.

The Doctor is satisfied, from what he saw, and from recent operations of his own, that no perfect Filling can be accomplished without using the Rubber Dam and separately Annealing and Malleting every strip of gold into the cavity by itself. Gold thus condensed must last a lifetime.

DR. BARNARD is happy to inform the public that the process of preparing and Filling a Tooth with the aid of New Instruments and appliances is almost as much a pastime with him now as is the insertion of Partial or Entire Sets of Teeth.

Persons not born with a gold tooth in their mouth can readily have a Gold Crown built on a decayed tooth or solid portion thereof that will LAST FOREVER.

PROPOSED GRAMMAR SCHOOL.

A WISH HAVING BEEN EXPRESSED in various quarters for the establishment of a Grammar or High School in Victoria, the Rev. E. Cridge has obtained the assistance of a gentleman well qualified to take part in the instruction, and will proceed with the organization of such an institution on the following basis:

RECTOR, REV. E. CRIDGE.

Principal pro tem (or until the state of the institution will permit of employing a paid Head Master) REV. E. CRIDGE, B.A., Graduate and Gisborne Scholar of St. Peter's College, Cambridge, and for ten years Master in the Oundle and in the North Walsham Grammar Schools. Senior Master, W. F. JONES, Esq., M. A., Graduate of Yale College, Conn.

As the design of this institution is to afford a thorough English and Classical Education combined with the study of the Physical Sciences and to prepare youths for the Universities, pupils will not be admitted into the lower department who are not well grounded in reading, writing, spelling, arithmetic, &c., nor into the upper until they are grounded in elementary classics and mathematics.

Instruction in Elementary Drawing and in French will form part of the routine of the lower school. Classes for more advanced pupils in these and other subjects will be formed as occasion shall require.

Classes will be commenced on MONDAY, FEB. 15, in the building known as the CENTRAL SCHOOL, on View street.

Early application to be made to REV. E. CRIDGE.

Kindness Construed into Cruelty.

Not being known to the Police of Esquimalt a Crime.

EDITOR COLONIST:—SIR:—Having seen a piece in the "standard" of your city calculated to injure my character, I beg leave to tell the public through the columns of your worthy paper that, though I plead guilty to the laying hands on the creature referred to in that paper, I positively denied, and do hereby deny, pleading guilty of cruelty, or any intention to injure the animal in any way; and as for the large hammer McCarthy himself on his oath, declared he did not see it or anything else in my hand, or see me strike or raise my hand to strike the animal. And here I will state my reasons for my conduct towards the animal. Having seen some other cattle pushing one of their number around and it looking very much swollen behind, I took it by the tail, moving it from side to side to find the extent of its injuries, which, if I had found dangerous, I should have considered it my duty to have ascertained the owner or reported to some one who would have seen it attended to; but finding its wound slight I thought no more about it until accused of cruelty by McCarthy, the policeman of Esquimalt. As for my urging in mitigation of punishment that I was a Granger, I simply stated that fact to show that that society was partly gotten up for the care and prevention of cruelty to animals.

The Magistrate in passing sentence, so far from making any attempt to prove cruelty to animals, would not for a moment entertain an idea that harm was intended and said the fine was simply for touching the animal at all, and not for the alleged cruelty which was not proven. He said that I left the Court completely exonerated, so that will easily observe the whole case is a gross misrepresentation calculated to injure my character and make a case out of nothing.

I would hereby warn everyone coming to the country to make the acquaintance of the worthy "Police" of Esquimalt, as he stated that if I had not been a stranger he would not have noticed me at all.
